

GLOBAL

Enhanced Recovery Symposium

A patient-centric, value-based care paradigm

Join experts from MD Anderson, UT System and other academic centers to discuss change management and best practices for implementing, sustaining and scaling an enhanced recovery program as a model for patient-centric, recovery-focused care in both surgical and non-surgical patient populations. Engage with patients, clinical innovators, and national and international experts from across all disciplines. Share, learn and collaborate on future efforts to enhance patient experience and long term outcomes beyond enhanced recovery.

Feb. 20-22, 2020

The University of Texas MD Anderson Cancer Center
Duncan Building (CPB) Floor 8, Elevator Q, Rooms 1-8
1155 Pressler Street
Houston, Texas 77030
